

# the INCREDIBLE ELECTRIC ANIMATION MACHINES

## PRODUCTION NEWSLETTER

From the "Incredible Electric Animation Machines" place... COMPUTER IMAGE PRODUCTIONS. A mile high in spirits and all the new capabilities that keep us a mile ahead of the state of the art. The only distraction in our attention to your fine video productions is the ever present lure and enticement of the tow lines at Vail and Aspen... just a threatening few minutes away.

**NEW AT CIC...** IVC 9000 Helical scan recording that keeps those multiple pass production numbers with the sparkling sharpness of 1st generation recordings!

**NEW AT CIC...** On premise Kodak production. Now last minute ideas can still be incorporated without even shutting off the "bubble machine"!

**NEW AT CIC...** Hundreds of new happy, heavyweight customers that have discovered no equal to the mind-blowing effects that can be achieved with the dazzling combination of... CAESAR and Scanimate computers operating in tandem! And it all happens at only one place in the world: Denver, Colorado!

**NEW AT CIC...** Datatron time code editing, automatic fade... in-line Chromakey and the new switching capabilities that have made CIC's VIDEO CONTROLLERS the state of the art switchers and another fast growing division of our Denver Company.

**NEW AT CIC...** A complete staff of eight highly trained, creative, energetic production people, occasionally willing to heed the stern admonishment of our new Production Manager... Hal Abbott.

**NEW AT CIC...** Super-Heavy Board of Directors headed by Chairman, Lee Harrison, III, who is still our inspiration and still smoking up tomorrow's concepts in a little room in the back. David D. Connell, Vice President, Children's Television Workshop, Robert C. Gathers, Scientific Software Corporation, Daniel J. Yomine.

**NEW AT CIC...** Ribald reps, ready to reinforce the razzle dazzle and amaze you with fleet footwork while they service the excitement at your end!

**John Macfarlane**  
625 North Michigan Ave.  
Chicago Illinois 60611
